This presentation must be read in conjunction with the Base Prospectus dated August 2, 2017 as so supplemented (the “Base Prospectus”). Full information on BNP Paribas and the offer of the Notes is available in the Base Prospectus.
CSR Policy at the Heart of BNP Paribas

BNP Paribas Green Bond Framework

Green Bond Proposed Transaction
Commitment for a Positive Impact on Environment and Society

Recogised Group’s initiatives in 2017

- Represented in the Group Executive Committee
- Defines the Group’s commitments to civil society and strengthens CSR / diversity practices in the banking businesses
- Make all the company’s levers converge to meet key challenges in society: energy transition, youth, local development, entrepreneurial and social innovation

Creation of a Company Engagement Department in 2017

- Stop funding companies whose principal business activity is gas and oil from shale (or oil from tar sands) & oil or gas projects located in the Artic region
- Carbon neutrality of BNP Paribas’ own operations achieved at the end of 2017
- One Planet Summit: partner with the UN Environment Programme (promote sustainable development in emerging countries) and the Breakthrough Energy Coalition (investment in sustainable energies)
- Stop the financings to tobacco companies
- Placed sustainable bonds for an equivalent of $6bn in 2017 (+116% vs. 2016)
- United Nations Sustainable Development Goals (SDGs): €155bn in financings to support energy transition and sectors considered as directly contributing to SDGs
- BNP Paribas Foundation and Bill & Melinda Gates Foundation: support 600 researchers on climate change adaptation in Africa
Being a Responsible Bank is at the Heart of our Strategy

Strengthening of Group CSR through the creation of the Company Engagement Department

As of September 2017, CSR is part of the new Company Engagement Department...

- Headed by an Executive Committee member fully dedicated to Company Engagement
- Working with all BNP Paribas’ business lines, and more specifically: Group CSR, Group Diversity and Group Communication

CSR is an integral part of our culture and strategy

- Top senior managers have CSR criteria integrated into their deferred variable compensation

Upholding the Highest Standards of Conduct and Ethics

Provide financing for the economy and advice our clients in an ethical manner and have a positive impact on its stakeholders and on the wider society.

Elaborated at Group level and enforced in every business lines (customer interest, financial security, market integrity, business ethics ...)

BNP Paribas complies with the law relating to transparency, anti-corruption and the modernisation of the economy ("Sapin II"), with the UK Bribery Act and the U.S. Foreign Corrupt Practices Act.

As employees, we all have the duty and the responsibility to support the Group in its commitment and to comply with the framework to prevent and fight corruption and influence peddling.

To that end, specific training sessions are provided. At end of 2017, 96.3% of Group employees were trained on an ethics-related issue.

A Code of Conduct on Fighting Corruption, integrated into the Group Code of Conduct, provides definitions as well as examples to illustrate prohibited behaviours. In case of violation of this Code, employees face disciplinary measures.

4 strengths: Solidity, Responsibility, Expertise, Good place to work.

4 levers: Agility, Culture of compliance, Client satisfaction, Open-mindedness.

- Employee training
- Use of whistleblowing procedure
- Incentive to be exemplary

For Mass & Public Transportation projects, the GHG emissions avoided thanks to the studied transportation project were determined:

- Considering two scenarios:
  - A reference scenario, that assumes the studied transportation project is not realized,
  - A project scenario, that assumes the studied transportation project is realized.

- Calculating the GHG emissions in each scenario, based on:
  - Traffic forecasts on the long term, for each mode of transport, of passengers running on the route impacted by the studied transportation project,
  - Line length of the studied transportation project,
  - Emissions factors for each mode of transport.

- The difference in emissions between the two scenarios is the volume of avoided GHG emissions thanks to the studied transportation project over its service life. GHG emissions can then be estimated on yearly average.

- Calculation and assumptions were reviewed and validated by EY

Robust and Positive External Reviews

Overall evaluation of the Green Bond issued by BNP Paribas is positive

- “oekom’s overall evaluation of the Green Bond issued by BNP Paribas is positive:
  - BNP Paribas has defined a formal concept for its Green Bonds regarding use of proceeds, processes for project evaluation and selection, management of proceeds and reporting. This concept is in line with the Green Bond Principles (…).
  - The overall sustainability quality of the asset pool in terms of sustainability benefits and risk avoidance and minimisation is good (…).
  - All assets of the asset pool are located in highly regulated and developed countries. Legislative frameworks in those countries set minimum standards, which reduce environmental and social risks.
  - The issuer itself shows a good sustainability performance and has been classified as ‘Prime’ by oekom research (…)”

Reasonable assurance report from EY

- “It is our role, based on our work to express a reasonable assurance conclusion as to whether the selected assets comply, in all material aspects, with the selection and monitoring criteria.”
- “In our opinion, the assets selected to be funded by the 2018 BNP Paribas Green Bond and the impact indicators comply, in all material aspects, with BNP Paribas Green bond Framework (as of January 2018).”
BNP Paribas Green Bond Non-Preferred Senior Summary of T&Cs

**Issuer** | BNP Paribas SA  
**Issuer Rating** | Aa3 / A / A+ / AA(Low) (Moody’s/S&P/Fitch/DBRS)  
**Expected Issue Rating** | Baa1/A-/A+/A (High) (Moody’s/S&P/Fitch/DBRS)  
**Ranking** | The Notes are Senior Non Preferred Obligations and are direct, unconditional, unsecured and senior (chirographaires) obligations of the Issuer, and rank and will at all times rank (i) pari passu among themselves and with other Senior Non Preferred Obligations (ii) senior to Eligible Creditors of the Issuer, Ordinarily Subordinated Obligations and any other present or future claims otherwise ranking junior to Senior Non Preferred Obligations and (iii) junior to present and future claims benefiting from preferred exceptions, including Senior Preferred Obligations  
**Use of Proceeds** | The net proceeds of the issue of the Notes will be allocated or reallocated from time to time to the financing and/or refinancing, in whole or in part, of Eligible Green Assets as defined below and further described in the BNP Paribas Green Bond Framework dated [12/01]/2018 available on https://invest.bnpparibas.com/en/green-bond-issues, as may be amended from time to time by the Issuer (the “BNP Paribas Green Bond Framework”). Pending the allocation or reallocation, as the case may be, of the net proceeds to Eligible Green Assets, the Issuer will invest the balance of the net proceeds, at its own discretion, in cash and/or cash equivalent and/or other liquid marketable instruments. The Issuer will use its best efforts to substitute any redeemed loans, any other form of financing that is no longer financed or refinanced by the net proceeds, and/or any such loans or any other form of financing which cease to be Eligible Green Assets, as soon as practicable once an appropriate substitution option has been identified. The Issuer will monitor the use of the net proceeds of the Notes via its internal information systems. For the avoidance of doubt, payment of principal and interest in respect of the Notes will be made from general funds of the Issuer and will not be directly or indirectly linked to the performance of Eligible Green Assets.  
"Eligible Green Assets" means any existing, on-going and/or future loans or any other form of financing from Eligible Sectors selected by the Issuer, which meet the Eligibility Criteria, all in accordance with the BNP Paribas Green Bond Framework. Eligible Sectors means the following sectors (all as more fully described in the BNP Paribas Green Bond Framework):  
• Renewable Energies  
• Energy Efficiency  
• Mass and Public Transportation  
• Water Management and Water Treatment  
• Recycling  
For the avoidance of doubt, the following sectors are excluded from the BNP Paribas Green Bond Framework: defence and security, palm oil, wood pulp, nuclear power generation, coal-fired power generation, unconventional oil and gas, mining and tobacco.  
"Eligibility Criteria" means the criteria with which any loan or any other form of financing should comply, at any time, in order to be considered as an Eligible Green Asset (as such criteria may be amended, from time to time, by the Issuer, subject to external review by third parties, as the case may be, as per the BNP Paribas Green Bond Framework). As part of the application of the Eligibility Criteria, the Issuer will assess the potential environmental, social and governance risks of the relevant assets, in line with its framework for managing such risks, including specific risk assessment tools and the Equator Principles. The selection of the Eligible Green Assets in accordance with the Eligibility Criteria will then be verified by external third parties, as per the BNP Paribas Green Bond Framework. As long as any Notes are outstanding, the Issuer is expected to provide a report, at least annually, on (i) the Eligible Green Assets financed or refinanced by the net proceeds and their relevant environmental impact indicators, (ii) the allocation of the net proceeds of the Notes to Eligible Green Assets detailing the aggregate amount dedicated to each of the Eligible Sectors and (iii) the balance of unallocated cash and/or cash equivalent and/or other liquid marketable instruments still held by the Issuer, as further described in the BNP Paribas Green Bond Framework. The report will be published by the Issuer on https://invest.bnpparibas.com/en/green-bond-issues.  
Pursuant to the BNP Paribas Green Bond Framework, a second party opinion has been obtained from an appropriate second party opinion provider and the Issuer has mandated an appropriate external independent auditor to provide an assurance report. The opinion and assurance report are available on https://invest.bnpparibas.com/en/green-bond-issues.

Focus on TLAC: Adaptation for French G-SIBs

- In 2016 change under French Law in the hierarchy in liquidation and resolution context
  - To facilitate resolution and the respect of MREL/TLAC requirements
  - Preference to all creditors including the current holders of senior debt
  - Creation of a new category of senior non preferred debt which will rank junior to the current senior unsecured debt but in priority to subordinated debt
  - Law effective since 10 December 2016

- A clear and straightforward creditors hierarchy

- This solution is currently considered as a potential new reference framework for European Union*

---

* Proposal from the European Commission to modify the hierarchy of debt within the European Union (new Directive amending art 108 of BRRD)
Key Features of Senior Non Preferred Debt

Main characteristics:

- Issued by BNP Paribas under the EMTN or US MTN programme
- Senior Non Preferred Notes (falling within the category of obligations described in Article L.613-30-3-I-4 of the French Monetary and Financial Code)
- Not structured debt
- Initial maturity > 1 year
- Rank in liquidation junior to Senior Preferred debt and senior to Subordinated debt
