BNP Paribas

Addressing New Challenges
Securing New Opportunities

Baudouin Prot
Chief Executive Officer

Bank of America / Merrill Lynch Conference, London
4 October 2011
Disclaimer

Figures included in this presentation are unaudited.

This presentation includes forward-looking statements based on current beliefs and expectations about future events. Forward-looking statements include financial projections and estimates and their underlying assumptions, statements regarding plans, objectives and expectations with respect to future events, operations, products and services, and statements regarding future performance and synergies. Forward-looking statements are not guarantees of future performance and are subject to inherent risks, uncertainties and assumptions about BNP Paribas and its subsidiaries and investments, developments of BNP Paribas and its subsidiaries, banking industry trends, future capital expenditures and acquisitions, changes in economic conditions globally or in BNP Paribas’ principal local markets, the competitive market and regulatory factors. Those events are uncertain; their outcome may differ from current expectations which may in turn significantly affect expected results. Actual results may differ materially from those projected or implied in these forward-looking statements. Any forward-looking statement contained in this presentation speaks as of the date of this presentation. BNP Paribas undertakes no obligation to publicly revise or update any forward-looking statements in light of new information or future events.

The information contained in this presentation as it relates to parties other than BNP Paribas or derived from external sources has not been independently verified and no representation or warranty expressed or implied is made as to, and no reliance should be placed on the fairness, accuracy, completeness or correctness of, the information or opinions contained herein. None of BNP Paribas or its representatives shall have any liability whatsoever in negligence or otherwise for any loss however arising from any use of this presentation or its contents or otherwise arising in connection with this presentation or any other information or material discussed.
Assessing the Changing Banking Landscape

**The Old Environment**
- More assets = More leverage
- Liquidity =
  - Abundant across maturities
  - Global
- Tier 1: minimum 4%
- Greater leverage = Greater returns

**The New Environment**
- More assets = More capital
- Liquidity =
  - Constrained longer term
  - Currency Ring-Fenced
- Common equity Tier 1: minimum 7%
- Additional buffer required
- More capital = Return discipline

Banking landscape experiences significant change

---

BNP PARIBAS | The bank for a changing world

Bank of America / Merrill Lynch Conference - October 2011
Low Risk Balance Sheet

- €1.9tn total balance sheet, €1.5tn after netting* as at 30.06.2011

**Low risk banking book**
- Strong diversification across industries and countries
- Doubtful loans coverage ratio > 80%
- Contained cost of risk throughout the crisis
  - Average 2007-2010 gross operating income to cost of risk of 2.7x
  - Average quarterly gross operating income of €3.5bn

**Conservatively managed trading book**
- Market risk diversified across various asset classes
- Low Value at Risk
  - Average VaR (1 Day – 99%): ~€50m in 2010-2011
  - Only 10 days of losses > VaR over the 2007-2010 period

**Strong liquidity resources**
- €135bn** of unencumbered assets eligible to central banks after haircuts (exclusively at the hand of the ALM) as at September 2011
- €554bn of customer deposits as at 30.06.11

* Netting of derivatives and repos; ** Does not include deposits with central banks (€35bn as at 30 June 2011)

#### One of the best rated banks

- **BNP PARIBAS** | The bank for a changing world
Liquidity Buffer*  
Unencumbered assets eligible to central banks after haircuts (exclusively at the hand of the ALM)

**OLD ENVIRONMENT**
- 30€bn 31.12.07
- 45€bn 31.12.08

**NEW ENVIRONMENT**
- 120€bn 31.12.09
- 160€bn 31.12.10
- 135€bn 09.09.11

Significant strengthening of available cash buffer since 2008

* Does not include deposits with central banks (€35bn as at 30 June 2011)
MLT Funding

- 2011 MLT programme already fully completed in July: €35bn
  - Average maturity of 6 years
  - O/w 40% in USD*

- In August and September: additional €6bn on top of completed programme
  - Through private placements and network distribution
  - With an average maturity of 5.2 years
  - At mid-swap +84bp

- Access to diversified funding sources
  - ~20% proportion of covered bonds protecting unsecured bondholders

Opportunistic management of MLT funding

2011 MLT funding – breakdown by sources

- Senior unsecured public issues 33%
- Covered Bonds 18%
- Private placements 29%
- LT Repos 3%
- Retail banking 17%

2011 MLT funding – breakdown by currency

- EUR 65%
- USD* 35%
- Other currencies 10%

* Either direct or through other currencies swapped in USD

</tbody>
</table>

2009: Balance sheet kept stable while consolidating Fortis

Proven track record of deleveraging
2011-2012 Action Plan: Pro-Active Deleveraging Targets

Target: +100bp common equity Tier 1 by end 2012 (vs. 30.06.11)

- Achieved through
  - USD60bn reduction of CIB liquidity needs by end 2012
  - Active portfolio management refocusing businesses on strategic activities
  - Equivalent to ~€70bn RWAs
    - Mainly in CIB (equivalent to ~€50bn RWAs)

- Stricter origination policies combined with asset repricing
- Asset sales
- Disposals of selected businesses

Deleveraging commitment resulting in a +100bp impact in CET1 by 2012
CIB Pro-Active Deleveraging

Reduce funding needs in USD
- 1H11 achievements: USD22bn reduction, mainly in Capital Markets activities
- 2012 target: additional USD60bn reduction of which 1/3 by end 2011

Optimize global deleveraging of CIB balance sheet

Immediately
- Asset repricing and strict origination policies
- Run-off of selected ST portfolios

Progressively
- Asset sales
- Business disposals

Resulting in a deleveraging equivalent to ~€50bn RWAs by end 2012
Retail Banking
Pro-Active Deleveraging

- Initiated early 2011, exit from
  - Long-term funding businesses lacking cross-selling opportunities
  - Businesses lacking repricing capacity

- Deleveraging in Personal Finance
  - Downsize mortgage specialized businesses
  - Refocus domestic markets’ mortgage activity on retail networks and increase cross-selling
  - Impact: €9bn asset reduction by end 2012; up to €30bn in the medium term

- Deleveraging in Equipment Solutions
  - Exit from leasing non core perimeters and subscale countries
  - Impact: €3bn asset reduction by end 2012; up to €6bn in the medium term

- Resulting mainly from portfolio run-off
- Potential upside from asset sales

Process already under implementation
Solid Funding in USD

Cash USD balance sheet* as at 09.09.11

Cash assets: €186bn

- Tangible & intangible assets: 6
- Trading assets & other: 28
- Other interbank assets: 6
- Non trading Fixed Revenue Securities**: 28
- Customer assets: 118

Cash liabilities: €186bn

- Equity: 9
- Short term funding***: 60
- O/w US Money Market Funds: €36bn
- MLT funding: 41
- Customer resources: 76

Short term funding accounts for 1/3 of total USD resources
To be further managed down through action plan

*Excluding derivatives, repos and non cash accounts; **Including HQLA and securities eligible to central banks; ***Net of ~€15bn excess USD cash deposited at the Fed
Assessing the Changing Banking Landscape

Variation in the Cost of Risk by Business Unit (2/3)

**Net provisions/Customer loans (in annualised bp)**

### Europe-Mediterranean
- Cost of risk: €47m
  - €29m vs. 2Q10
  - €56m vs. 1Q11
- Decrease in all regions this quarter

### BancWest
- Cost of risk: €62m
  - €65m vs. 2Q10
  - €13m vs. 1Q11
- Continuing loan book improvement

### Personal Finance
- Cost of risk: €406m
  - €80m vs. 2Q10
  - €25m vs. 1Q11
- Ongoing reduction
Variation in the Cost of Risk by Business Unit (3/3)

Net provisions/Customer loans (in annualised bp)

CIB Financing businesses

- Cost of risk: write-back of €14m
  - Compared to write-back of €98m in 2Q10
  - Compared to provision of €37m in 1Q11
- Limited new doubtful loans, additional provisions more than offset by write-backs
CIB - Market Risks

- Low VaR since 2010
  - Due to significant reduction in market risks since 4Q08
- VaR model proven to be robust during the crisis
  - Only 10 days of losses above the VaR over the last 5 years, consistent with the 99% statistic

* Excluding BNP Paribas Fortis (BNP Paribas Fortis: average VaR €9m in 2Q11)
