Disclaimer

Figures included in this presentation are unaudited. On 19 April 2010, BNP Paribas issued a restatement of its divisional results for 2009 reflecting the breakdown of BNP Paribas Fortis businesses across the Group’s different business units and operating divisions, transfers of businesses between business units and an increase in the equity allocation from 6 to 7% of risk-weighted assets. Similarly, in this presentation, data pertaining to 2009 results and volumes has been represented as though the transactions had occurred as at 1st January 2009, BNP Paribas Fortis’ contribution being effective only as from 12 May 2009, the date when it was first consolidated. To calculate the “at constant scope” variation rate between the 1st quarter 2009 and the 1st quarter 2010, BNP Paribas Fortis’ pro forma data for the 1st quarter 2009 was added to this period’s legacy data and the sum was compared to the 1st quarter 2010 data.

This presentation includes forward-looking statements based on current beliefs and expectations about future events. Forward-looking statements include financial projections and estimates and their underlying assumptions, statements regarding plans, objectives and expectations with respect to future events, operations, products and services, and statements regarding future performance and synergies. Those events are uncertain; their outcome may differ from current expectations which may in turn significantly affect expected results. Actual results may differ materially from those projected or implied in these forward-looking statements. Any forward-looking statement contained in this presentation speaks as of the date of this presentation. BNP Paribas undertakes no obligation to publicly revise or update any forward-looking statements in light of new information or future events.
