Figures included in this presentation are unaudited. On 14 March 2014, BNP Paribas issued a restatement of its quarterly results for 2013 reflecting, in particular, (i) the adoption of the accounting standards IFRS 10 “Consolidated Financial Statements”, IFRS 11 “Joint Arrangements”, which has the effect of reducing the net income attributable to equity holders by €14m, as well as the amended IAS 28 “Investments in Associates and Joint Ventures”, (ii) internal transfers of activities and results made on 1st January 2014, in the context of the medium-term plan, (iii) the application of Basel 3 which modifies the capital allocation by division and business line and (iv) the adjustment of allocation practices of the liquidity costs to the operating divisions in order to align them to the Liquidity Coverage Ratio approach. Furthermore, in order to ensure comparability with the future 2014 results, 2013 pro-forma quarterly accounts have been prepared considering TEB group under full consolidation for the whole of 2013. For the whole of these restated results, data pertaining to 2013 have been represented as though the changes had occurred on 1st January 2013. This presentation is based on the restated 2013 quarterly data.

This presentation includes forward-looking statements based on current beliefs and expectations about future events. Forward-looking statements include financial projections and estimates and their underlying assumptions, statements regarding plans, objectives and expectations with respect to future events, operations, products and services, and statements regarding future performance and synergies. Forward-looking statements are not guarantees of future performance and are subject to inherent risks, uncertainties and assumptions about BNP Paribas and its subsidiaries and investments, developments of BNP Paribas and its subsidiaries, banking industry trends, future capital expenditures and acquisitions, changes in economic conditions globally or in BNP Paribas’ principal local markets, the competitive market and regulatory factors. Those events are uncertain; their outcome may differ from current expectations which may in turn significantly affect expected results. Actual results may differ materially from those projected or implied in these forward looking statements. Any forward-looking statement contained in this presentation speaks as of the date of this presentation and no assumptions have been taken regarding any change in foreign exchange rates. BNP Paribas undertakes no obligation to publicly revise or update any forward-looking statements in light of new information or future events.

Cross-selling at the heart of the model

- Strong development in Italy of cross-selling following BNL’s acquisition in 2006...
  - Private banking: market share x2 (~3% in 2008 to ~6% in 2013)
  - Cash management: marginal player before 2006, #1 in 2013 \(^{(1)}\)
  - Syndicated loans: #7 in 2007, #3 in 2013 \(^{(2)}\)
  - Corporate Finance (M&A): from #15 in 2005 to #5 in 2013 \(^{(3)}\)
- …and also in Belgium after Fortis’ acquisition in 2009
  - Private banking: from #7 in 2009 to #1 in 2013
  - Consumer finance outstandings: +68% between 2009 & 2013 \(^{(4)}\)
  - Corporate Finance (M&A): from #10 in 2007 to #1 in 2013 \(^{(3)}\)
- Roll out of the model in International Retail Banking

Good risk diversification

- By sector of activity: no sector representing more than ~5% of Group’s total gross commitments \(^{(7)}\)
- By business: no single business line weighing more than 14% of RWAs
- By geography: over 70% of revenues outside France with the highest concentration in North America and Belgium/Luxembourg at 14% of revenues
