Disclaimer

The figures included in this presentation are unaudited. On 29 March 2016, BNP Paribas issued a restatement of its quarterly results for 2015 reflecting, in particular (i) an increase in the capital allocated to each business line to 11% of risk-weighted assets, compared to 9% previously, (ii) the charge of subordination costs of Additional Tier 1 and Tier 2 debt issued by the Group to the divisions and business lines, a review of the way it charges and remunerates liquidity between the Corporate Centre and the business lines and the adaptation of the allocation practices for revenues and operating expenses of Treasury activities within CIB, (iii) the allocation to the divisions and business lines of the contribution to the Single Resolution Fund, the reduction of the French systemic tax and new contributions to the deposit guarantee funds of BNL and Luxembourg Retail Banking which had been temporarily booked in the operating expenses of the Corporate Centre and (iv) some limited internal transfers of business activities and results. The 2015 quarterly result series have been restated reflecting these effects as if they had occurred on 1st January 2015. The slides related to 1Q16 results are based on the restated 2015 quarterly series.

This presentation includes forward-looking statements based on current beliefs and expectations about future events. Forward-looking statements include financial projections and estimates and their underlying assumptions, statements regarding plans, objectives and expectations with respect to future events, operations, products and services, and statements regarding future performance and synergies. Forward-looking statements are not guarantees of future performance and are subject to inherent risks, uncertainties and assumptions about BNP Paribas and its subsidiaries and investments, developments of BNP Paribas and its subsidiaries, banking industry trends, future capital expenditures and acquisitions, changes in economic conditions globally or in BNP Paribas’ principal local markets, the competitive market and regulatory factors. Those events are uncertain; their outcome may differ from current expectations which may in turn significantly affect expected results. Actual results may differ materially from those projected or implied in these forward looking statements. Any forward-looking statement contained in this presentation speaks as of the date of this presentation. BNP Paribas undertakes no obligation to publicly revise or update any forward-looking statements in light of new information or future events. It should be recalled in this regard that the Supervisory Review and Evaluation Process is carried out each year by the European Central Bank, which can modify each year its capital adequacy ratio requirements for BNP Paribas.

Delivering on 2016 ROE Target

Several levers contributing to Return on Equity improvement…

- Simple & Efficient: ramping up of recurrent cost savings
- Progressive loan volumes pick up in the context of a better European economy
- Success of the regional plans
- BNL balance sheet de-risking

… despite headwinds

- Low interest rates environment
- New taxes and regulations
- Higher capital requirements

2016 ROE target of the plan confirmed (reminder: 10% ROE calculated on 10% CET1 ratio)

Steady increase of the ROE and ROTE over 2014-2016 together with higher CET1 ratio

* Excluding exceptionals. For 1H16, with contribution to the Single Resolution Fund and systemic taxes not annualised

  - Organic generation and active capital management policy (~35 bp per year)
  - Initial Public Offering of First Hawaiian Bank (~40 bp* expected, o/w ~5 bp in 3Q16)
- Expected upcoming change in the Pillar2 which will be split as of 01.01.17 between:
  - Pillar 2 Requirement (P2R)
  - Pillar 2 Guidance (P2G) which is not MDA (Maximum Distributable Amount) relevant

Steady organic growth of CET1 ratio across the cycle

* Subject to market conditions and regulatory authorisations; ** Basel 2 from December 2007 to December 2011, Basel 2.5 as at December 2012, then fully loaded Basel 3 for the years after; *** including the buy-back of the Fortis shares held by the minority shareholders (~-50bp); **** +100bp excluding costs related to the comprehensive settlement with the U.S. authorities; ***** Q/Q-1 CET1 ratio evolution restated of capital increases and acquisitions; average number of quarters of negative CET1 ratio evolution for 10 European peers
The Strength of a Diversified and Integrated Business Model…

- A business model diversified by country and business
  - No country, business or industry concentration
  - Presence primarily in developed countries (>85% of revenues)
  - No business unit >16% of allocated equity
  - Business units and regions evolving according to different cycles

- An integrated business model fuelled by cross-selling

- Strong resilience in changing environments
  - Example of Brexit: well-balanced market activities in Europe between Paris and London (UK: 2.5% of the 2015* Group’s operating income)

“World’s best bank 2016”
“Fine-tuned BNP Paribas excels at the business of banking “
