A "triptic" culture / governance / business strategy

A Corporate Governance that Supports the Long-Term Strategy of the BNP Paribas Group

- Separation of the functions of Chairman and CEO since 2003
- No member of the Executive Committee sitting on any of the Board Committees since 1997
- Selection of Directors:
 - A forward looking “Fit & Proper” process
 - Diversity and complementarity of the personal characteristics as well as of the areas of expertise
- Audit Committee set up as soon as 1994, whose competencies were split:
 - Financial Statements Committee, on the one hand
 - On the other hand, an Internal Control, Risk Management and Compliance Committee
- A Committee of the Board in charge of dealing, among others, with CSR matters
- Undertaking by the Directors to put their mandate at the Board’s disposal in the event of any significant change in their duties or powers
- Shareholders’ protection: 1 share = 1 vote = 1 dividend
 - No double voting rights
 - No voting caps
- No anti takeover or public exchange offer measures
- A compensation policy integrating the long-term interests of the Group and its stakeholders

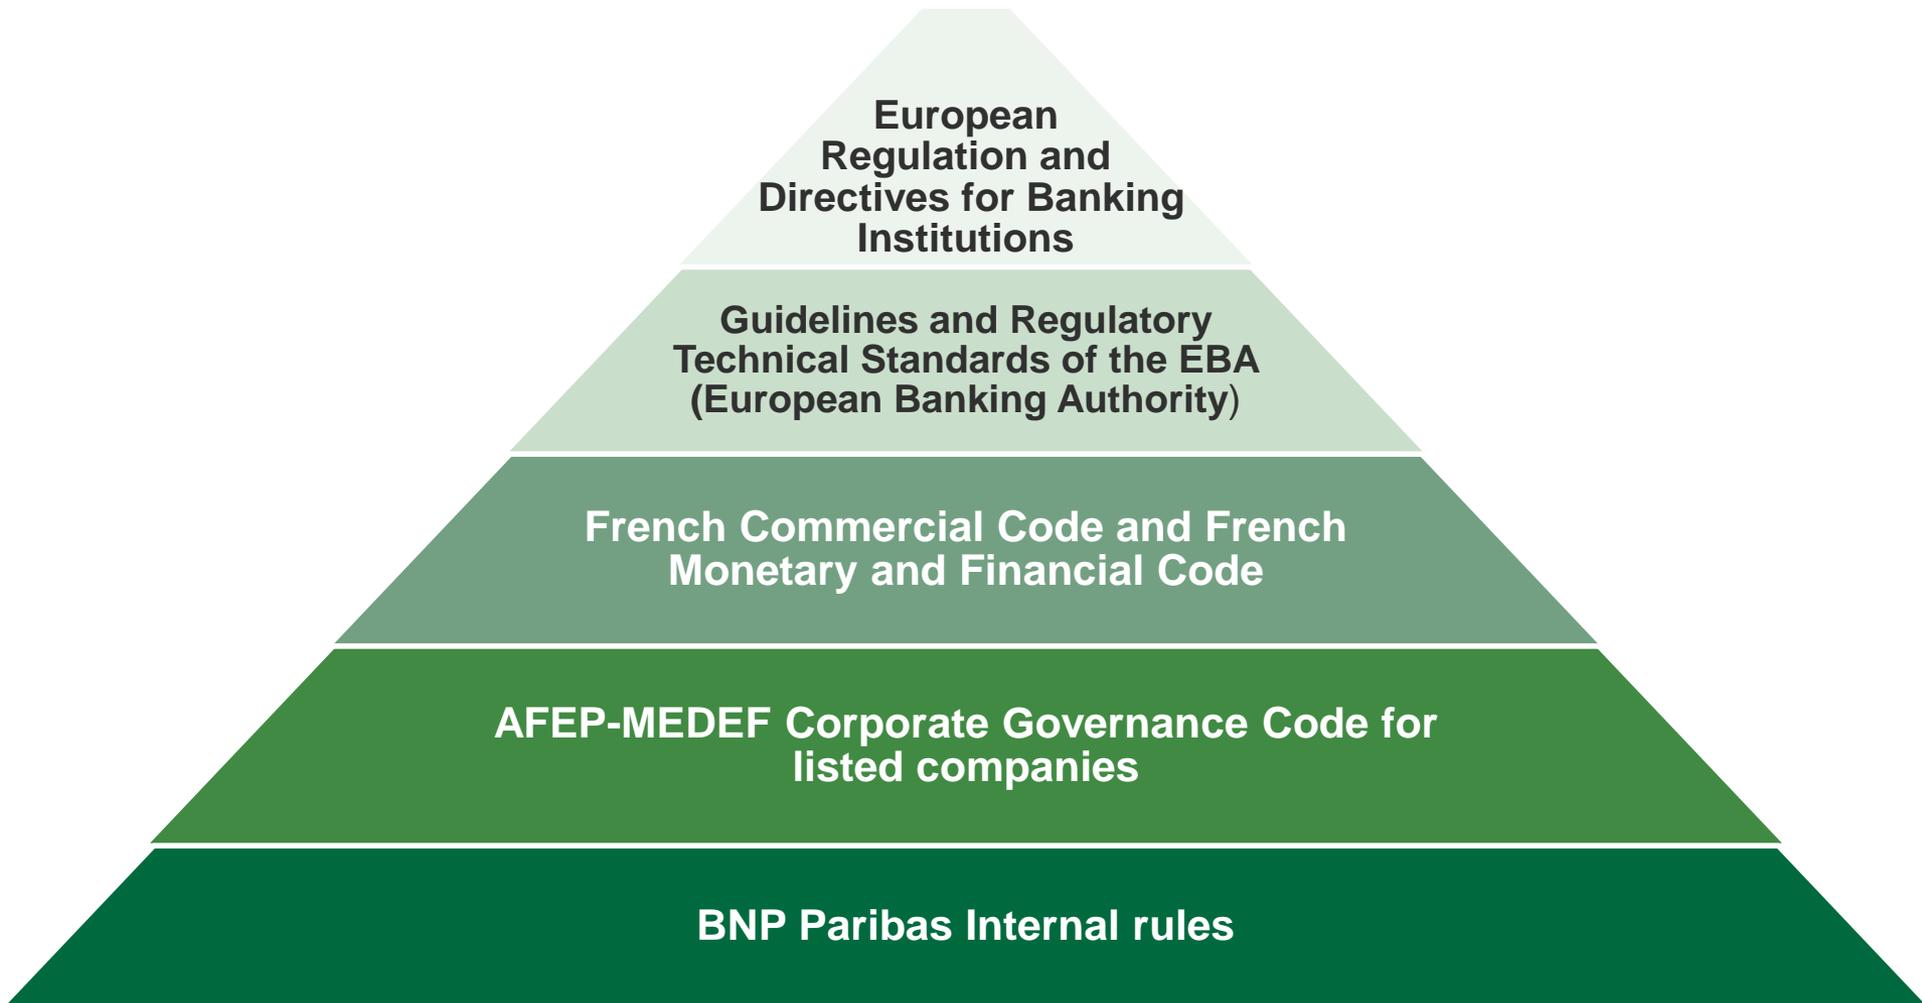

A New Paradigm for Corporate Governance

- Attention is turning towards Board effectiveness and accountability, moreover:
 - Encompassing new domains like non financial risk factors (reputation, ...)
 - Among which CSR issues
 - Scrutinized by far more other stakeholders than shareholders:
 - Staff, customers, the general public, society as a whole,...
 - But whose opinion nevertheless impacts the Company's value for shareholders.....
- These various stakeholders are increasingly assessing
 - Board composition, Directors' qualifications,
 - The effectiveness of the Board's decisions and their links to financial performance
- New core duties and responsibilities of the Board are thus:
 - Oversight of business strategy but also long-term sustainability
 - Succession planning (Board of Directors as well as ExCo) and more generally talent management
 - Risk oversight (including cyber security)
 - Maintaining proper tone-at-the-top, corporate culture, ethics and reputation
 - Reviewing policies on responsible social behavior (CSR)
 - Including the incentive structure

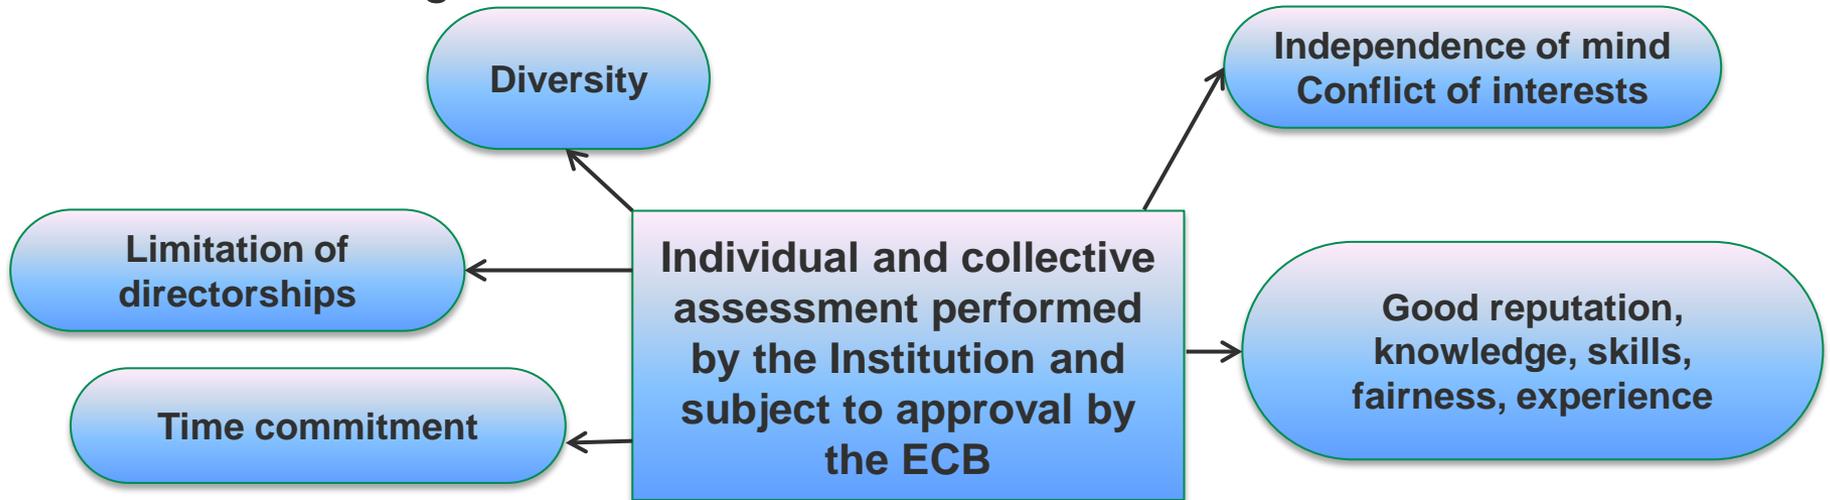

A Specific Feature for Corporate Governance in the Banking Industry (1/3): a Pyramid of Regulations

A Specific Feature for Corporate Governance in the Banking Industry (2/3): Regulators' and Supervisors' Oversight

- Suitability of the Board of Directors: oversight by the ECB and the ACPR through the SSM

- Financial Institutions are subject to stricter regulations than other sectors' companies, for instance:
 - Fewer directorships allowed
 - Assessment of the suitability of Directors and Effective Directors
 - New guidelines by the EBA applicable since June 2018 on internal governance and the « *fit and proper* » of Directors and Corporate Officers

A Specific Feature for Corporate Governance in the Banking Industry (3/3): Regulators' and Supervisors' Oversight

- Remuneration policy: mandatorily consistent with the Institution's risk profile

Specific rules for banking institutions

For executive management and "Material Risk Takers":

- **Limitation of variable remuneration:**
 - \leq fixed remuneration or ≤ 2 times fixed remuneration if prior approval of the shareholders General Meeting;
- **obligation to apply deferral and retention periods to variable remuneration;**
- **obligation to pay part of the variable remuneration in equity-linked instruments;**
- **Claw-back and malus provisions**

> Corporate Governance within BNP Paribas subject to EBA (European Banking Authority) guidelines and to the continuous oversight and assessment of the ECB (European Central Bank) through the SSM (Single Supervisory Mechanism)

> A rich set of rules and guidelines forming an additional guarantee for stakeholders regarding the suitability of Corporate Governance and its alignment with shareholders' interests
